
TDA-9001T Digital Display Baking Oven Temperature Ragulator

General description :

TEL96, 72 series temperature indication regulator is new product of measuring and automatically adjusting the temperature parameters in the process of working. It has following features:

- Small volume,
- Nice appearance,
- Light weight,
- Good reliability,
- Convenient installation,

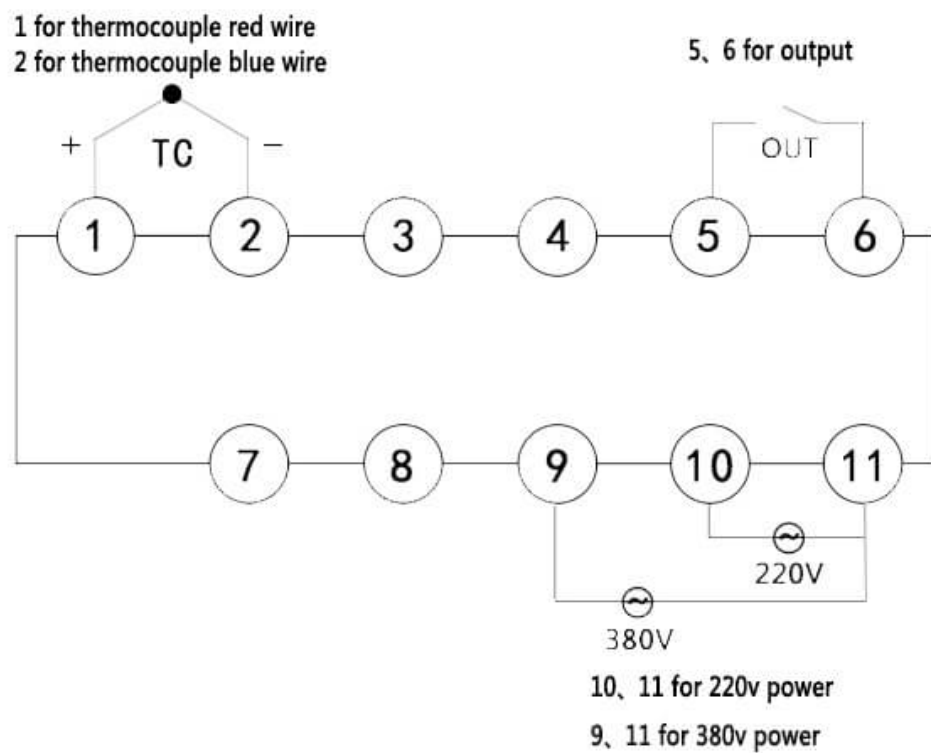

-
- Strong anti-interference,
 - Appropriate price
 - And so on.

It is widely used in all kinds of baking machinery.

Main technical parameters:

- Model: TDA-9001T
- External size: 120 x 60 x 110mm
- Hole size: 116 x 52mm
- Working power supply: 220/380VAC, 50/60Hz
- Temperature range: 0-300°C
- Accuracy: $\leq \pm(1.0\%F.S+1 \text{ digit})$
- Mounting type: embedded installation
- Input way: K type
- Output way: relay contact
